**Super-detailing and weathering model vehicles by Charlie Crabb.
JUNE 22, 2019, Noon**

Included will be a discussion of models available, fitting them to the era of your model railroad. The primary focus will be on weathering techniques to change the model from a toy to a realistic feature on the model railroad. Use of washes and weathering powders and their application will be covered. Charlie is a car buff having restored full scale vehicles as well as modeling in "n" and "HO" scales. Many of his miniature vehicles are visible at the CCMR.
